

God's Heart--God's Vision—The Mission

Jesus said, "Let the children come to me and do not hinder them, for to such belongs the kingdom of God." Luke 18:16

Jesus loves children and so do we! As I think back to the call of God on my heart to help the hopeless and hungry children in Otra Banda-DR, I stand in awe of God's timing. Little did we know, The Lord orchestrated a mission that would save many from starving during a pandemic and quarantine. When people come together united for a purpose from God-He gets the glory!

Our recent work in Otra Banda has included

building a kitchen which enables us to provide meals to many children each weekday. Our fall water project was a huge success and we now have a functioning bathroom! Daily,

we share the love of Jesus, and children are given important life skills training such as reading, writing and math. The Lord continues to show us that He wants to transform this community with hope and redemption.

Praise Jesus!

February 2021 Mission Trip

In February, a group of 9 from the Midwest traveled to meet the children of Outcast Redeemed. What a beautiful joy filled time we had with these kids as their faces lit up from the moment we arrived. Imagine sharing clothing, shoes, toys, and hygiene items with children that have never received a gift in their life! We made it a birthday celebration for all the children complete with a special meal, cake, gifts, and games. It was hard to tell who was having more fun, the adults, or the kids!

Current Needs- Fundraising

There are so many children in desperate need. Everyday many are without food to eat. We cannot imagine the struggle these

people live with daily. Many children have no parents due to early death from disease and malnutrition. We are currently serving 25 children in a small 1 room church. We need a property and building of our own so that we can serve many more children. We believe the Lord would have us build a structure and have an area to raise chickens

and plant vegetables. We see the need to provide some advanced skills training to the many children in need as they grow up so they can support themselves. We want to give a hand up not just a handout. Some ideas for training include sewing, cooking, small engines, and construction. We are excited to see this community transformed!
