

OUTCAST REDEEMED

The spirit of the Lord God is upon me, Because the Lord has anointed me to preach good tidings to the poor; He has sent me to heal the brokenhearted, to proclaim liberty to the captives, and the opening of the prison to those who are bound.

Isaiah 61:1

Kids Receive Science Lessons And Show Their Light Changing Bead Bracelets

Here the boys show off the sunlight changing bracelets they received. In April we had a mission team ministering to the kids through science lessons that pointed to the creator God. Each day they learned a new concept that reinforced our creator and his goodness. The kids loved it!

MonteVerde's Vulnerable Children

I saw this little boy walking through garbage and broken glass all alone, no shoes and no clothes. I have seen him walking naked in the past. I was happy he had a diaper on however it was very full!

The reality is that children are left to wander this community alone, unsupervised, ignorant, and without suitable clothing. Most of the children we serve are children without a country due to the war in Haiti. Many do not even have a birth certificate. This makes them especially vulnerable because crimes against them go unpunished. This is the way of life here.

Sex trafficking and even the unspeakable horror of organ harvesting from kidnapped children has been reported.

The Lord Sent Us Here To Make a Difference and Bring Hope!

Building Kingdom's Kitchen

"Yo Tengo Hambre- I'm Hungry"

When a child in MonteVerde says "Tengo Hambre" they are truly hungry. Hunger pains in little bellies. Many of these very skinny children suffer from intestinal parasites, skin diseases, eye infections, respiratory illness and more. Undernourishment, lack of vitamins, and consuming unsafe food and water contribute to much of the problem.

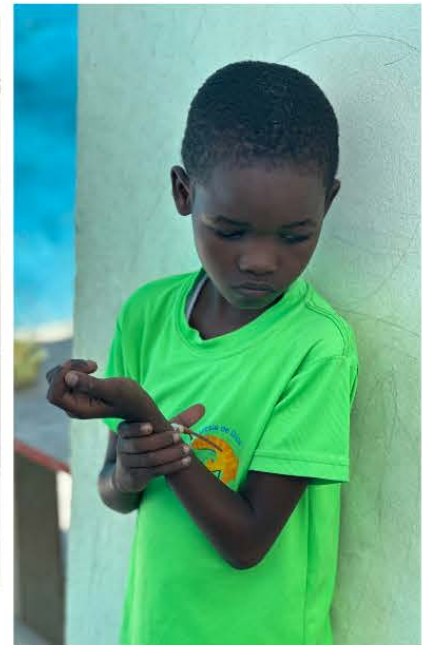

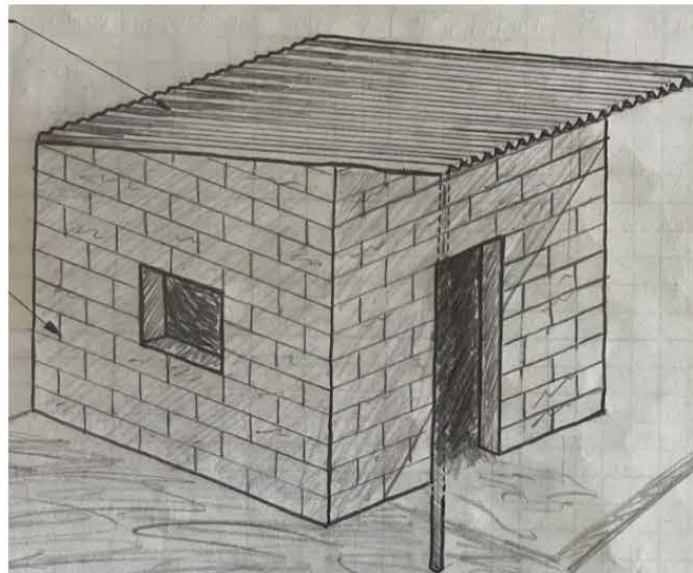

We cook for 85 children 3 days a week right now using a small rented shed. This shed is being torn down any day.

We have a plan to build a permanent kitchen on our recently acquired piece of land. This will be the first permanent structure on the Hope Center Land. We will have the freedom to cook whenever we want for as many people as possible. There are hundreds of children in the community that are hungry.

We will be able to purchase bulk food at lower cost with the ability to store it in our locked kitchen. We will also have a place to keep vitamins.

Rice
Beans
Tomatoes
Chicken
Fish
Vitamins
Clean Water
